

*"Touched by splendor - embraced by beauty."*

## A MEMORY OF THE JOY OF CHILDHOOD

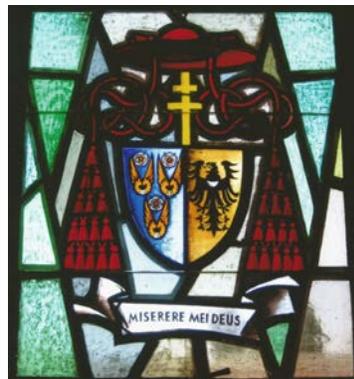

Living room, Gunn residence, Long Beach, CA

This window, five feet square, is a colorful and stylized version of the Angels Gate breakwater in San Pedro. Artist and client Linda Gunn ([www.LindaGunn.com](http://www.LindaGunn.com)) has been inspired by the breakwater since childhood.

## STAINED GLASS RESTORED AFTER ACCIDENTAL BREAKAGE AT ST. PAUL THE APOSTLE

This beautiful window with outstanding brilliant colors was restored by Ancient Arts after being hit by a ball during school recess at St. Paul the Apostle in Westwood ([www.sp-apostle.org/](http://www.sp-apostle.org/)). The window depicts the crest of Cardinal McIntyre, former Archbishop of Los Angeles ([http://en.wikipedia.org/wiki/James\\_Francis\\_McIntyre](http://en.wikipedia.org/wiki/James_Francis_McIntyre)) along with his motto, Miserere Mei Deus, God Have Mercy on Me.

St. Paul the Apostle Sacristy, Los Angeles, CA, 2016

## RESTORATION IN THE MARION CHAPEL AT VISITATION CHURCH

Located in the Marion Chapel of Visitation Church ([visitationchurch-la.com](http://visitationchurch-la.com)) facing the schoolyard, this exquisite stained glass panel was unfortunately struck by a ball and the elaborate center piece was broken. Ancient Arts ([www.AncientArtsStainedGlass.com](http://www.AncientArtsStainedGlass.com)) owner Mark Schoem had worked with Visitation Church many times over the years and we were called again when this unfortunate incident occurred. Because of the shape of the center image the entire intricate small panel of 58 pieces had to be completely disassembled in order to incorporate the replacement piece. Once the best replacement glass was located, the blue center piece required etching, staining, painting and firing in order to match the original as closely as possible. The panel was successfully re-installed in January, 2017.

## OUR LADY OF GUADALUPE, EL MONTE, CA

Extensive stained glass repairs and restorations were carried out for Our Lady of Guadalupe Catholic Church over a two month period between October and December of 2015. Of the eleven large stained glass windows in the Sanctuary, three were repaired in place. Seven panels requiring more extensive restoration, including one requiring the replacement of a missing inscription were removed to our studio in San Pedro. Replacement glass was located to match the missing and broken pieces as closely as possible. It was a pleasure working with Fr. William Rodriguez and his dedicated staff.

## NORBERTINE SISTERS, WILMINGTON, CA

Norbentine Sisters, Chapel, Wilmington, CA, 2016

The Norbertine Sisters have a chapel in their Convent in Wilmington with three stained glass windows. The Sisters were

having a big problem with the Chapel being excessively hot in the summer and cold in the winter. Our project consisted of providing new window frames with room for stained glass on the inside and energy conserving low-e glass on the outside. Each window had to be re-configured to fit in the new frames.
